PERSONALIZED DOSAGING

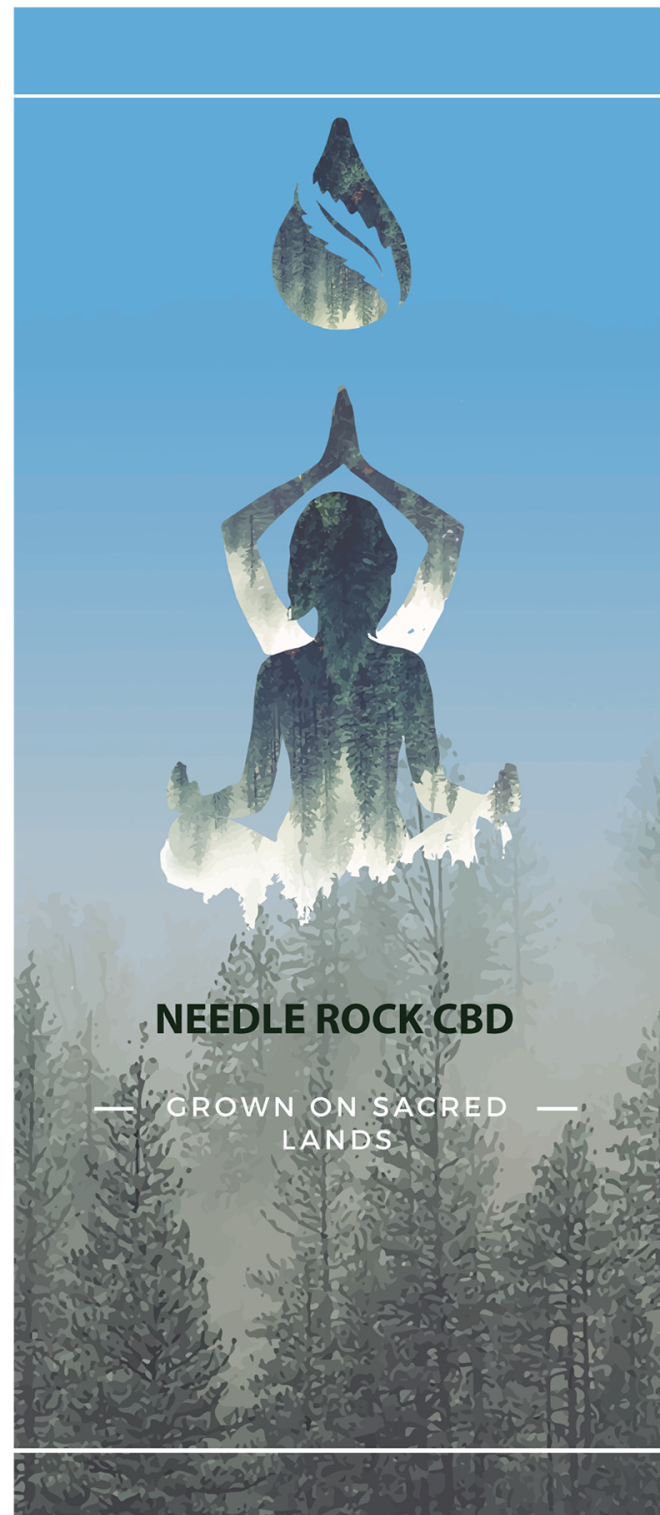

Find your highest point

*"We wish you an amazing year,
filled with great health and prosperity!"*

Needle Rock Farms is a 421 acre Ranch located in the pristine Rocky Mountains of Colorado surrounded by national forest. The Ranch is part of a much bigger "Meditation and Wellness Center" which was founded in 2014 by Julia and Adam Desmond. Their large-scale production and grow facility satisfies the enormous demand for high CBD – low THC strains, clones, oils, and raw botanical material. Needle Rock Farms is community-minded and cares about the planet and its people. They are committed to providing uncompromised, high-quality products using the latest, leading edge and ethical production technology.

Looking to serve the interests of the CBD industry, Needle Rock Farms focus on providing whole cannabis ingredients is the perfect recipe for success. The company's impressive executive team is poised to set the industry standard in holistic, whole hemp products using only organic, and sustainable farming practices.
